

Accuracy Plug 5/8 Oz.

Model TC 743

This model is a moderate taper, soft power blank as compared to fishing rods rated for 5/8 oz lures. This blank is 74 inches long and is most often used with separate handle, although some casters may like the “blank through “ handle style common on bass type fishing rods. The separating handle is becoming increasingly difficult to locate made by Featherweight called the Champion, although one style from Fuji is still available. The blank can be trimmed off the butt to shorten the overall length with most casters using 6 to 6’6” overall including the handle.

GUIDE PLACEMENT FROM TIP:

Tip, 5 1/4, 12, 19 1/2, 28 1/4, 37 3/4, 47 1/2

GUIDE SIZE FROM TIP:

Tip 7mm ring; two 7mm, 8mm, 10mm, 12mm, 16mm. Low frame casting guides.

HANDLE CONFIGURATION:

Fuji handle NGH 12- S/AB (straight shaft) or NGH 12-B/AB (offset shaft) with ferrule adapter GA-7.5mm

For blank through type handles the caster must choose their own grip shape such as pistol or straight, type of trigger seat (exposed blank or solid) with small fore cork.
