

18 Gram Two Hand Spin Distance

Model TS 13518-3

This is a very power blank to cast 18 gram weights as compared to a fishing rod of this lure rating. The taper is moderate and is long enough that some casters may wish to shorten from the butt to make it easier to turn over at the end of the delivery. Also, the stronger caster may want to trim a little off the tip.

GUIDE PLACEMENT FROM TIP:

Tip, 10, 26, 47, 73

GUIDE SIZE FROM TIP:

Tip with 20mm ring, 25mm, 30mm, 50mm, 70mm

These are large chrome removable guides made special for this event in Germany and Czech Republic. Large light wire spinning guides may be substituted, but are difficult to travel with because of the large size.

HANDLE CONFIGURATION:

Rear grip five inches foam or cork; up lock reel seat with top of seat located at 27 inches from end of blank (estimated hand span for caster 5'10" to 6'2" tall) more or less span according to caster; fore grip about 6 inches foam or cork.
